

CAPABILITY STATEMENT

Nolan Carter Architecture is a Service Disabled Veteran-Owned Small Business (SDVOSB) with 60+ years of experience specializing in healthcare, dental, municipal and financial institution design. Based in Green Bay, Wisconsin, we provide innovative architectural solutions for commercial projects, including both new build construction and renovations. Our client-focused approach ensures tailored designs that meet the highest industry standards.

CORE COMPETENCIES

- Commercial design
- Healthcare design
- Ground up construction design
- Renovation and expansion design
- 3D Modeling / Revit
- Collaboration through Autodesk Cloud
- Clear, concise documentation
- Regulatory compliance
- Concept budget estimation
- Contract administration
- Client advocacy during construction
- Jobsite quality and conformance inspection
- Project budget monitoring

DIFFERENTIATORS

Nolan Carter Architecture delivers tailored, functional design solutions for healthcare, dental, financial, and municipal clients. We leverage Autodesk Revit with Bluebeam and BIM 360 / ACC for precise, coordinated documentation across all project phases. Our team brings strong knowledge of ADA, Wisconsin codes, and federal standards to ensure compliance and reduce risk. Every project is principal-led, providing responsive service, efficient delivery, and high-quality results. We have extensive experience managing phased renovations, adaptive reuse, and facility expansions—especially in occupied or medically sensitive environments.
